VETERINARY EXAMINATION FOR DYNAMIC SYNDICATIONS

At the request of Dynamic Syndications, a pre-sale veterinary examination of **Lot 117, AMERICAIN x PARIS TRYST brown yearling colt**, brands as described in the 2017 Inglis Melbourne Premier Yearling Sales Catalogue, was carried out at the Inglis Sale Complex, Oaklands VIC, on the 24th February 2017, prior to the commencement of the Inglis Melbourne Premier Yearling Sale.

Clinical Examination:

He was a high quality colt presented in good condition. He is an attractive individual, well conformed with good bone, deep girth and excellent length of rein. A well balanced, athletic type with plenty of scope. He stands over good ground. The colt is still immature and will develop further. All clinical parameters were found to be within normal limits. He was examined in hand, and was found to be free moving. Stethoscope examination of heartbeat was normal. There was no clinical evidence of wear or injury to her extremities.

Radiographic Examination:

Pre-sale there was a full set of radiographs available for inspection in the repository at the Inglis Sales Complex. Upon examination, they were low risk as there were no radiographic findings of any significance noted.

Endoscopic Examination:

Post sale the upper respiratory tract was examined endoscopically and the larynx and pharynx were found to be normal in appearance and function.

Conclusion:

In my opinion, at the time of this examination, **Lot 117 AMERICAIN ex PARIS TRYST 2015 brown yearling colt** is in so far as can be determined from the extensive examination conducted, suitable for racing and public syndication and as such, is therefore suitable for all risk mortality insurance cover. I confirm that I advised Dynamic Syndications that in my opinion this lot was suitable for purchase.

Yours faithfully,

Dr. T.M.B. Roberts BVSc. MRCVS
