## VETERINARY EXAMINATION FOR DYNAMIC SYNDICATIONS

At the request of Dynamic Syndications, a pre-sale veterinary examination was conducted on **Lot 1822, DEEP FIELD ex JACLYN, 2019 Bay Yearling Filly**, brands capital V conjoined with capital R nr shoulder, 52 over 9 off shoulder, as described in the 2021 Magic Millions National Yearling Sales Catalogue by my practice partner Dr Derick Wong. This was carried out at the Magic Millions Sale Complex, Bundall QLD, on the 1st June 2021, prior to the commencement of the Magic Millions sale whilst I undertook the review of the X-rays and the endoscopic videoscope lodged in the repository.

### Clinical Examination:

She is a high-quality individual, presented in excellent condition. Well conformed, athletic, good scope, a deep girth, and moves well. The filly is still immature and will develop further. All clinical parameters were found to be within normal limits. She was examined in hand and was found to be free moving. Stethoscope examination of heartbeat was normal. There was no clinical evidence of wear or injury to extremities.

### Radiographic Examination:

Pre-sale there was a full set of radiographs available for inspection in the repository at the Magic Millions Complex. Upon examination, they were considered **low risk** as there were no radiographic findings of any significance noted.

### Endoscopic Examination:

Pre-Sale there was a videoscope in the repository was reviewed which was **Grade 1 (L)** – (large airway). Post-sale the upper respiratory tract was examined endoscopically, as permitted under Terms and Conditions of sale. She was passed with the larynx and pharynx found to be normal in appearance and function.

### Blood Testing:

A post-sale blood test for anabolic androgenic steroids was undertaken as permitted under Terms and Conditions of sale. This was negative.

### Conclusion:

In my opinion, at the time of this examination, **Lot 1822, DEEP FIELD ex JACLYN, 2019 bay yearling filly**, is in so far as can be determined from the examination conducted, suitable for racing and public syndication and as such, is therefore suitable for all risk mortality insurance cover. I confirm that I advised Dynamic Syndications that in my opinion this lot was suitable for purchase.

Yours faithfully,

**Dr. T.M.B. Roberts BVSc. MRCVS**  
**2 June 2021**

NB: This examination is valid for seven (7) days and is only for the use of the person requesting the examination. The issuer of this certificate has no financial interest in the above horse and no contract with any other third party. The issuer has a long-standing relationship with Dynamic Syndications to provide a detailed veterinary assessment and specific advice on suitability of prospective yearling purchases at all yearling sales within Australasia.
