VETERINARY EXAMINATION FOR DYNAMIC SYNDICATIONS

At the request of Dynamic Syndications, a pre-sale veterinary examination was conducted on **Lot 3, SMART MISSILE ex READY TO LIVE (USA) bay yearling filly**, brands **Capitals BTS** nr shoulder, **2** over **0** off shoulder, as described in the 2022 Magic Millions Tasmanian Yearling Sale Catalogue. This was carried out at the Magic Millions Sale Complex, Launceston TAS, on the **20th February 2022**, prior to the commencement of the Magic Millions sale.

Clinical Examination:

This was conducted onsite by Dr Pdraig Kelly and was passed as fit for racing and syndication (see attached certificate from Dr Kelly). She was described as athletic, well conformed with a deep girth and good length of rein. A high-quality individual presented in excellent condition. She stands over good ground. The filly is still immature and will develop further. All clinical parameters were found to be within normal limits. There was no clinical evidence of wear or injury to extremities. This general health check included: pulse, temperature, respiration, thoracic auscultation, as well as an ophthalmological examination for eyesight, mucous membrane colour, musculature symmetry and conformation, where no abnormalities were found.

She was examined in hand and was found to be free moving. There was no lameness at the walk and trot. On palpation and manipulation of the distal limbs including major joints, no abnormalities were found. The filly has a quiet temperament.

Radiographic Examination:

Pre-sale there was a full set of radiographs available for inspection in the repository at the Magic Millions Complex and online. I was asked to review these for Dynamic Syndications. Upon examination, they were considered **low risk** as there were no radiographic findings of any significance noted.

Endoscopic Examination:

Pre-sale there was a videoscope of the airway lodged in the repository and online. Upon my review it was **Grade 1** (normal) in appearance and function.

Post-sale the upper respiratory tract was examined endoscopically, and the larynx and pharynx remained **Grade 1**, normal in appearance and function and was passed.

Conclusion:

In my opinion, at the time of this examination, **Lot 3, SMART MISSILE ex READY TO LIVE (USA) bay yearling filly**, is in so far as can be determined from the examinations conducted, suitable for racing and public syndication and as such, is therefore suitable for all risk mortality insurance cover. I confirm that I advised Dynamic Syndications that in my opinion this lot was suitable for purchase.

Yours faithfully,

Dr. T.M.B. Roberts BVSc. MRCVS

FIT FOR SYNDICATION

HORSE: Smart Missile X Ready To Live 2020

SIRE: Smart Missile

DAM: Ready To Live

DESCRIPTION: Bay thoroughbred yearling filly

BRANDS: NSS: BTS
OSS: 2 over 0

MICROCHIP: 985100012192928

DATE: 22/2/22

On the 20th of February 2022, the above-described horse was examined for the purposes of a PDS for syndication for Dynamic Syndications.

Based on the examination, which involved a clinical examination, endoscopic examination of the upper respiratory tract, and full series of radiographs, this horse is considered fit for syndication for racing purposes and mortality insurance.

The filly has no abnormalities or deformities which will prevent her from racing or racing to her full potential.

This certificate has been prepared for the inclusion in the disclosure statement of the thoroughbred in question. This certificate may be relied upon by potential investors; however it does not constitute a “pre-purchase” examination. I certify that I have no current, nor contemplate, future interest in the above-described horse, other than in the supply of the Veterinary opinion of suitability for racing. Furthermore, I am aware that this report is provided to Dynamic Syndications for use by them in promoting the sale of the above-described filly.

Kind regards,

Dr. Pádraig Kelly MVB, MRCVS, Cert ESM (Equine Sports Medicine), MANZCVS (Large Animal Radiology) N8631
