## VETERINARY EXAMINATION FOR DYNAMIC SYNDICATIONS

At the request of Dynamic Syndications, I was asked to re-examine the **ALMANZOR (FR) ex ANCHOVY (IRE) Bay yearling colt**, brands **Capitals S inside Large C** nr shoulder, **63** over **2** off shoulder, to assess its continued suitability for public syndication. The purpose of the re-examination request was for the promoter to meet ongoing compliance with regulatory requirements by supplying a current veterinary certificate for inclusion with their PDS.

I had previously inspected this horse on behalf of my client Dynamic Syndications at the Magic Millions Yearling Sale, Bundall, Qld on the **8th January 2024**, prior to the commencement of the Sale where a detailed pre-purchase inspection was conducted including a full set of x-rays being read and were considered **low risk**, and an endoscopic evaluation conducted which was **Grade 1** (normal). I advised my client at that time; in my opinion the colt was suitable for their purchase with an overall rating – **PASS, 7**.

### Clinical Examination:

This re-examination was conducted on 12th July 2024. The colt has been spelling for 4 days, having recently been in training at Bimbadeen Park, Werombi, NSW. This inspection was a general health check which included temperature, pulse, respiration, thoracic auscultation, as well as an ophthalmological examination for eyesight, mucous membrane colour, musculature symmetry and conformation, where no abnormalities were found.

There was no lameness at the walk and trot in hand. No response to hoof testers was found. On palpation and manipulation of the distal limbs including major joints, no abnormalities were found. The colt has a quiet temperament.

The colt remains a high-quality individual, athletic and free moving. He is well conformed and well balanced. The colt has grown significantly since he was purchased however is still immature and will develop further. No radiographs, blood tests, drug sampling, ECG or upper respiratory endoscope were performed. All clinical parameters were found to be within normal limits.

### Conclusion:

In my opinion as at the **12th JULY 2024**, the date of re-examination, the **ALMANZOR (FR) ex ANCHOVY (IRE) Bay yearling colt**, is in so far as can be determined from the examination conducted, presents in good health and has passed clinical examination and remains suitable for all risk mortality insurance cover and is suitable for racing and public syndication.

Yours faithfully,

**Dr. T.M.B. Roberts BVSc. MRCVS**  
**12 July 2024**

NB: This examination is valid for seven (7) days and is only for the use of the person requesting the examination. The issuer of this certificate has no financial interest in the above horse and no contract with any other third party. The issuer has a long-standing relationship with Dynamic Syndications to provide a detailed veterinary assessment and specific advice on suitability of prospective yearling purchases at all yearling sales within Australasia.
