## VETERINARY EXAMINATION FOR DYNAMIC SYNDICATIONS

At the request of Dynamic Syndications, I was asked to re-examine the **BIVOUAC ex HOUSTON BENEFACOR Chestnut yearling colt**, brands **Capitals SS over wave line** nr shoulder, **25** over **2** off shoulder, to assess its continued suitability for public syndication. The purpose of the re-examination request was for the promoter to meet ongoing compliance with regulatory requirements by supplying a current veterinary certificate for inclusion with their PDS.

I had previously inspected this horse on behalf of my client Dynamic Syndications at the Magic Millions Yearling Sale, Bundall, Qld on the **8th January 2024**, prior to the commencement of the Sale where a detailed pre-purchase inspection was conducted including a full set of x-rays being read and were considered **low risk**, and an endoscopic evaluation conducted which was **Grade 1** (normal). I advised my client at that time; in my opinion the colt was suitable for their purchase with an overall rating – **PASS, 7+**.

### Clinical Examination:

This re-examination was conducted on 21<sup>st</sup> June 2024. The colt is currently in training at Bimbadeen Park, Werombi, NSW. This inspection was a general health check which included temperature, pulse, respiration, thoracic auscultation, as well as an ophthalmological examination for eyesight, mucous membrane colour, musculature symmetry and conformation, where no abnormalities were found.

There was no lameness at the walk and trot in hand. No response to hoof testers was found. On palpation and manipulation of the distal limbs including major joints, no abnormalities were found. The colt has a quiet temperament.

The colt remains a high-quality individual, athletic and free moving. He is well conformed and well balanced. The colt has grown significantly since he was purchased however is still immature and will develop further. No radiographs, blood tests, drug sampling, ECG or upper respiratory endoscope were performed. All clinical parameters were found to be within normal limits.

### Conclusion:

In my opinion as at the **21st JUNE 2024**, the date of re-examination, the **BIVOUAC ex HOUSTON BENEFACOR Chestnut yearling colt**, is in so far as can be determined from the examination conducted, presents in good health and has passed clinical examination and remains suitable for all risk mortality insurance cover and is suitable for racing and public syndication.

Yours faithfully,

**Dr. T.M.B. Roberts BVSc. MRCVS**  
**21 June 2024**

NB: This examination is valid for seven (7) days and is only for the use of the person requesting the examination. The issuer of this certificate has no financial interest in the above horse and no contract with any other third party. The issuer has a long-standing relationship with Dynamic Syndications to provide a detailed veterinary assessment and specific advice on suitability of prospective yearling purchases at all yearling sales within Australasia.

## VETERINARY EXAMINATION FOR DYNAMIC SYNDICATIONS

At the request of Dynamic Syndications, a pre-sale veterinary examination was conducted on **Lot 761, BIVOUAC ex HOUSTON BENEFACOR Chestnut yearling colt**, brands **Capitals SS over wave line** nr shoulder, **25** over **2** off shoulder, as described in the 2024 Magic Millions Yearling Sales Catalogue. This was carried out at the Magic Millions Sale Complex, Bundall QLD, on the **8<sup>th</sup> January 2024**, prior to the commencement of the Magic Millions sale.

### Clinical Examination:

A quality individual presented in excellent condition. A well conformed, neat and athletic type with conformation that suggests a later 2yo, Spring 3yo, Sprinter who could lengthen to a Mile. He has a good length of rein and a deep girth. He stands over good ground. The colt is still quite immature and will develop and strengthen significantly further over the next 6 months. All clinical parameters were found to be within normal limits. Both testicals have descended. There was no clinical evidence of wear or injury to extremities. This clinical health check included: temperature, pulse, respiration, thoracic auscultation, an eyesight ophthalmological examination, mucous membrane colour, musculature symmetry and basic conformation, where no abnormalities were found.

He was examined in hand and was found to be free moving. There was no lameness at the walk and trot. On palpation and manipulation of the distal limbs including major joints, no abnormalities were found. The colt has a quiet temperament.

### Radiographic Examination:

Pre-sale there was a full set of radiographs available for inspection in the repository at the Magic Millions Complex. Upon examination, the X-rays were considered **low risk**, and there were no radiographic findings of any significance noted.

### Endoscopic Examination:

Post sale the upper respiratory tract was examined endoscopically, and the larynx and pharynx were found to be **Grade 1**, normal in appearance and function.

### Conclusion:

In my opinion, at the time of this examination, my overall rating score was – **PASS, 7+**.

**Lot 761, BIVOUAC ex HOUSTON BENEFACOR Chestnut yearling colt**, is in so far as can be determined from the examination conducted, suitable for racing and public syndication and as such, is therefore suitable for all risk mortality insurance cover. I confirm that I advised Dynamic Syndications that in my opinion this lot was suitable for purchase.

**Yours faithfully,**

**Dr. T.M.B. Roberts BVSc. MRCVS**
