VETERINARY PRACTICE

**VETERINARY EXAMINATION FOR DYNAMIC SYNDICATIONS**

At the request of Dynamic Syndications, a veterinary examination of the chestnut thoroughbred yearling filly by **FARNAN ex GLOBAL SANCTION 2023** (as described Lot 223 in the Inglis HTBA Yearling Sale 2025 catalogue), was performed at Inglis Riverside Complex, NSW on the 27<sup>th</sup> April 2025.

**Identification:**

Brands:	Near Shoulder:	Star inside Crown
	Off Shoulder:	87 over 3

**Clinical Examination:**

She is immature but a well-developed, athletic filly. The filly was presented in excellent clinical health, with even muscle mass and well conformed. Upon examination all clinical parameters were found to be within normal limits. Ophthalmic examination determined no issues of concern. Auscultation of the thorax (chest) revealed a normal and regular heart rhythm at rest, with the filly having normal lungs sounds and normal respiratory rate at rest. At the time of this examination there were no issues of concern regarding her extremities.

**Repository:**

The radiographic and pre-sale upper airway endoscopy examinations pertaining to this horse lodged in the repository at the Inglis Riverside complex were examined and the findings were as follows:

Radiographs: Low Risk

Upper Airway Examination: Normal anatomy with Grade 1 function (Lane).

**Conclusion:**

In my opinion, at the time and within the limits of this examination, the thoroughbred filly by **FARNAN ex GLOBAL SANCTION 2023** in so far as can be determined within the range of this examination, is suitable for syndication and all risk mortality insurance cover.

Yours faithfully,

**Dr. T.M.B. Roberts BVSc. MRCVS**  
**27<sup>th</sup> April 2025**

NB: This examination is valid for seven (7) days and is only for the use of the person requesting the examination. The issuer of this certificate has no financial interest in the above horse and no contract with any third party.
