VETERINARY EXAMINATION FOR DYNAMIC SYNDICATIONS

At the request of Dynamic Syndications, a veterinary examination of the chestnut thoroughbred yearling filly by **STAY INSIDE ex HER EMPIRE 2023** (as described Lot 400 in the Inglis EASTER Yearling Sale 2025 catalogue), was performed at Inglis Riverside Complex, NSW on the 7th April 2025.

Identification:

Brands:	Near Shoulder:	Y on L inside Circle
	Off Shoulder:	116 over 3

Clinical Examination:

She is an athletic filly, well grown, and well-developed. The filly was presented in excellent clinical health, well conformed with even muscle mass. Upon examination all clinical parameters were found to be within normal limits. Ophthalmic examination determined no issues of concern. Auscultation of the thorax (chest) revealed a normal and regular heart rhythm at rest, with the filly having normal lungs sounds and normal respiratory rate at rest. There is noted superficial scar to the skin from a posterior laceration to near hind above the fetlock. A scan of the injury was supplied which clinically noted it does not involve the joint or tendon. It is of no consequence. At the time of this examination there were no issues of concern regarding her extremities.

Repository:

The radiographic and pre-sale upper airway endoscopy examinations pertaining to this horse lodged in the repository at the Inglis Riverside complex were examined and the findings were as follows:

Radiographs: Low Risk

Upper Airway Examination: Normal anatomy with Grade 1 function (Lane).

Conclusion:

In my opinion, at the time and within the limits of this examination, the thoroughbred filly by **STAY INSIDE ex HER EMPIRE 2023** in so far as can be determined within the range of this examination, is suitable for syndication and all risk mortality insurance cover.

Yours faithfully,

Dr. T.M.B. Roberts BVSc. MRCVS
7th April 2025
