

FIT FOR SYNDICATION

HORSE: UNNAMED

SIRE: COMMANDS

DAM: MEZMAR

DESCRIPTION: BAY COLT

BRANDS: NSS: J N UNDER TICKED BAR
 OSS: 127 OVER 2

MICROCHIP NUMBER: 985100012014105

DATE: 23 / 5 / 2014

On 23rd May, 2014, the above-described horse was examined for the purposes of a PDS for syndication for Dynamic Syndications and I am aware that prospective investors will rely on the opinion contained herein.

Based on the examination, which involved a clinical examination, endoscopic examination of the upper respiratory tract, and full series of radiographs, this horse is considered fit for syndication for racing purposes and mortality insurance.

I certify that I have no current or prospective interest in the above yearling other than in supply of this veterinary opinion of sustainability for purchase for racing.

Should you require further information regarding this horse, I can be contacted on 0412 501 999.

Regards,

Dr John B. Walker BVSc

This certificate has been prepared for the inclusion in the disclosure statement of the thoroughbred in question. This certificate may be relied upon by potential investors, however it does not constitute a "pre-purchase" examination. I certify that I have no current, nor contemplate, future interest in the above-described horse, other than in the supply of the Veterinary opinion of suitability for racing. Furthermore, I am aware that this report is provided to Dynamic Syndications for use by them in promoting the sale of the above-described colt.

Date: 23rd May 2014

Horse Name: Mezmar/ Commands 12

Description: Bay 2yr old colt

Microchip No: 985100012014105

I examined the above horse to assess its suitability to syndicate as a race horse.

The examination performed was a general health check which included taking the horse's temperature, checking mucous membrane colour, pulse quality and respiratory system. Cardiac and thoracic auscultation were performed. The eyes were assessed for vision. Musculature symmetry and basic conformation were assessed. No abnormalities were found.

There was no lameness at the walk and trot and no response to hoof testers was found. On palpation and manipulation of the legs and major joints no abnormalities were found.

No radiographs, blood tests, drug sampling, ECG or upper respiratory endoscopy were performed.

Obviously the above mentioned special procedures would be necessary to diagnose certain joint problems such as OCD or problems with the upper respiratory tract.

I certify that I have no current or future interest in the above horse other than the supply of this veterinary opinion of the above examination.

Please do not hesitate to contact the undersigned if you have any queries regarding the above.

Kind Regards

Dr Andrew Argyle B.V.Sc (PRET)

Date: 19th September 2014

Horse Name: Mezmar/Commands 12

Description: 2012 Bay Thoroughbred Colt

Microchip No: 985100012014105

Brand NSS:  OSS: 127 over 2

I examined the above horse to assess its suitability to syndicate as a race horse.

The examination performed was a general health check which included taking the horse's temperature, checking mucous membrane colour, pulse quality and respiratory system. Cardiac and thoracic auscultation were performed. The eyes were assessed for vision. Musculature symmetry and basic conformation were assessed. No abnormalities were found.

There was no lameness at the walk and trot on a straight line and on a circle. The horse was sound post flexion and no response to hoof testers was found. On palpation and manipulation of the legs and major joints no abnormalities were found.

On endoscopic examination the horse was a grade 1 out of 5 (Normal laryngeal function)

No radiographs, blood tests, drug sampling or ECG were performed.

I certify that I have no current or future interest in the above horse other than the supply of this veterinary opinion of the above examination.

Please do not hesitate to contact the undersigned if you have any queries regarding the above.
