Dear Dean

RE: 2015 National Yearling Sales Series

Blood samples for the following lots were analysed for the presence of anabolic androgenic steroids. No exogenous anabolic androgenic steroids were detected. No anomalous endogenous steroid profiles were observed.

Lot 0729 b.f.	Savabeel - Swarovski
-----------------	----------------------

Please Note:

The samples were analysed by liquid/liquid extraction, gas chromatography/mass spectrometry and liquid chromatography/mass spectrometry. This report is endorsed under the New Zealand Racing Laboratory Service's 2.70 Accreditation. The results of analysis apply to the samples as received.

Yours sincerely,

James Jennings
Auction Manager
