VETERINARY EXAMINATION FOR DYNAMIC SYNDICATIONS

At the request of Dynamic Syndications, a pre-sale veterinary examination of **Lot 303, TALE OF THE CAT ex HOT TICKET Black / Brown Yearling Colt**, brands as described in the 2013 William Inglis Classic Yearling Sale Catalogue, was carried out at the Newmarket Sales Complex Randwick, NSW, on the 19th January 2013, prior to the commencement of the Inglis Classic Yearling Sale.

Clinical Examination:

This was a well presented individual. He was athletic, well balanced with good length of rein and a good flowing action at the walk. He had a good length of stride stretching out over ground. He was well conformed. The angulations to shoulder and pastern were correct. He has a strong hindquarter. He was a free moving individual who was presented in excellent condition for inspection. The colt is still immature and will develop further. When fully mature, he is expected to reach an average height of approximately 15.2 hh. Stethoscope examination of heartbeat was normal. He was examined in hand, and was found to be free moving. There was no clinical evidence of wear or injury to its extremities. There was no response to flexion tests. All clinical parameters were found to be within normal limits.

Radiographic Examination:

Pre-sale there was a full set of radiographs available for inspection in the repository at the Inglis Sales Complex. Upon examination, in my opinion there were no radiographic findings of any significance noted.

Endoscopic Examination:

Post sale the upper respiratory tract was examined endoscopically and the larynx and pharynx were found to be normal in appearance and function.

Conclusion:

In my opinion, at the time of this examination, **Lot 303, TALE OF THE CAT ex HOT TICKET Black / Brown Yearling Colt** is in so far as can be determined from the extensive examination conducted; suitable for racing and public syndication and as such, is therefore suitable for all risk mortality insurance cover. I confirm that I advised Dynamic Syndications that in my opinion this lot was suitable for their purchase.

This colt has been subsequently reviewed on 20 February 2013 for the purposes of writing this report for inclusion in Dynamic Syndications PDS. There were no changes noted to the findings above.

Yours faithfully,

Dr. T.M.B. Roberts BVSc. MRCVS
21 February 2013

NB: This examination is valid for seven (7) days and is only for the use of the person requesting the examination. The issuer of this certificate has no financial interest in the above horse and no contract with any other third party. The issuer has a long standing relationship with Dynamic Syndications to provide a detailed veterinary assessment and specific advice on suitability of prospective yearling purchases at all yearling sales within Australasia.
